VOS MONTHLY REPORT

October 2012

In October 2012, **277 manned and 1789 automated observations** were received in average per day from EUMETNET ships operating in the EUCOS area of interest (382 conventional VOS and 128 Shipborne Automatic Weather Stations (S-AWS)).

EUCOS Automated Weather Stations (AWS)

During the month, **ten AWS stations**, out of the thirteen funded by EUCOS, reported their observations onto the GTS.

Inmarsat-C Half Compression deployment

KNMI continued to deploy the half compression technique on their conventional VOS. Raw data messages sent through Inmarsat-C (Burum LES - SAC 431) are processed at Meteo-France for GTS transmission. In October, 32 conventional VOS reported a total of **1308** half compressed messages.

The working area of the E-SURFMAR website http://esurfmar.meteo.fr/wikisurf-wa/ is the place where you can get a lot of informations about the programme in general and its components (data buoys and VOS). Ask the E-SURFMAR Programme Manager Pierre.Blouch@meteo.fr for the password in case you forgot it. Notice you can participate in providing your own information to the PM or in writing directly on the website. This latest facility, easy to handle, may be provided to volunteers.

The E-SURFMAR metadata database address is http://esurfmar.meteo.fr/doc/vosmetadata/ . This database contains the most recently updated WMO Pub47 metadata of the global WMO VOS fleet. Every day, extracts from the database are made available at ftp://esurfmar.meteo.fr/pub/Pub47/ .

Monthly QC statistics and other quality control tools are available at:

A “blacklist” of EUMETNET VOS reporting dubious air pressure values is displayed at:

VOS operators (focal points) and PMOs are invited to check whether their ships are not in this list and to take appropriate actions to correct possible problems if any.

A list of European AWS is available at http://www.meteo.shom.fr/qctools/last-report-list.htm. Updated every day, this list gives for each station: its operating country; the date of its first report (after September 2004); the date of its last report - in red for those which have not reported for more than 2 weeks - ; etc...

The official E-SURFMAR webpages are henceforth on the EUCOS Web site (http://www.eucos.net/). Choose “*EUCOS Networks*” then “*E-SURFMAR*” in the left menu.
