

VOS MONTHLY REPORT
September 2013

In September 2013, **261 manned and 1920 automated observations** were received in average per day from EUMETNET ships operating in the EUMETNET observation area of interest (368 conventional VOS and 131 Shipborne Automatic Weather Stations (S-AWS)).

EUMETNET Automated Weather Stations (AWS)

During the month, **nine AWS stations**, out of the thirteen funded by EUMETNET, reported their observations onto the GTS.

Ident.	Ship's name	CC	Last rep.	nobs	Remark
BATEU00	Mary Arctica	DK	20130930	471	
BATEU01	Toronto Express	UK	20130930	448	
BATEU02	Celtic Explorer	IR	20130930	354	
BATEU03	Celtic Voyager	IR	20130930	690	
BATEU04	Nuka Arctica	DK	20130930	458	
BATEU05	Irena Arctica	DK	20130929	360	
BATEU06	Montreal Express	UK	20130930	428	
BATEU07	Mississauga Exp.	UK	20130723		Failed - No report in September
BATEU08	Naja Arctica	DK	20130930	418	
BATEU09	Urania	FR	20130930	445	

Six BaRos AWS stations installed on E-ASAP ships **and twelve** installed on other ships or on Cycfos moored buoy reported their data onto the GTS in September. Three stations are BaRos+. In addition to air pressure, they normally report air temperature, air humidity and wind. In order to correctly measure the wind, the sonic anemometer must be well exposed. It seems this is not the case here for two out of them. Wind observations have been removed from the GTS for these meanwhile better exposures are found.

Ident.	Ship's name	CC	Last rep.	nobs	Remark
BAREU00	Atlantic Compass	EU	20130930	289	
BAREU04	Alantic Companion	EU	20130930	513	
BAREU08	Liverpool Express	EU	20130930	544	
BAREU11	Dublin Express	EU	20130930	536	
BAREU12	Atlantic Conveyor	EU	20130930	591	
BAREU13	Ottawa Express	EU	20130930	557	
BAREU51	La Superba	IT	20130930	505	BaRos+ (Gill MetPak-II) - No wind reports
BAREU58	Louis Majesty	CY	20130930	391	
BAREU60	Dubrovnik	HR	20130930	330	
BAREU62	Daniel A	IT	20130927	382

BAREU66	Excellent	IT	20130930	548	
BAREU67	Hilde A	IT	20130930	439	BaRos+ S-AWS (WXT520). - No wind reports
BAREU68	Cycfos buoy	CY	20130930	704	Cyprus moored buoy
BAREU69	LNG Lirici	IT	20130930	253	
BAREU70	Marguerite A	IT	20130930	457	
BAREU71	Sete Citades	PT	20130930	379	BaRos+ (MetPak-II) - Reliable wind reports
BAREU72	Natalia A	IT	20130930	383	

Inmarsat-C Half Compression deployment

KNMI continued to deploy the half compression technique on their conventional VOS. Raw data messages sent through Inmarsat-C (Borum LES - SAC 431) are processed at Meteo-France for GTS transmission. In September, 24 conventional VOS reported a total of **870** half compressed messages.

Useful links

The working area of the E-SURFMAR website <http://esurfmar.meteo.fr/wikisurf-wa/> is the place where you can get a lot of informations about the programme in general and its components (data buoys and VOS). Ask the E-SURFMAR Programme Manager Pierre.Blouch@meteo.fr for the password in case you forgot it. Notice you can participate in providing your own information to the PM or in writing directly on the website. This latest facility, easy to handle, may be provided to volunteers.

The E-SURFMAR metadata database address is <http://esurfmar.meteo.fr/doc/vosmetadata/> . This database contains the most recently updated WMO Pub47 metadata of the global WMO VOS fleet. Every day, extracts from the database are made available at <ftp://esurfmar.meteo.fr/pub/Pub47/> .

Monthly QC statistics and other quality control tools are available at:

<http://www.meteo.shom.fr/qctools/>

A “blacklist” of EUMETNET VOS reporting dubious air pressure values is displayed at:

<http://www.meteo2.shom.fr/qctools/sevblackap.htm>

VOS operators (focal points) and PMOs are invited to check whether their ships are not in this list and to take appropriate actions to correct possible problems if any.

A list of European AWS is available at http://www.meteo2.shom.fr/qctools/last-report-list_surfmar.htm. Updated every day, this list gives for each station: its operating country; the date of its first report (after September 2004); the date of its last report - in red for those which have not reported for more than 2 weeks - ; etc...

The official E-SURFMAR webpages are henceforth on the EUCOS Web site (<http://www.eucos.net/>). Choose “*EUCOS Networks*” then “*E-SURFMAR*” in the left menu.
